**habitat** WIN  
height adjustable glass windscreens system

**Habitat-Win by Broadview** is height adjustable glass windscreen that allows you to enjoy outdoor spaces with friends and family throughout the seasons.

Habitat-Win offers the option of open sides when the weather permits but can close when more protection is required from wind and rain allowing more enjoyment from the outdoor space.

Glass adjustable windscreens habitat-win by Broadview is designed to be flexible and easily used, as the upper panel can be manually moved, making it a perfect solution for restaurant, cafe and pub terraces. Customers can also adjust the height of the windscreen depending on the weather and protection required.

Made from aluminium, the standard model is equipped with a 3+3 mm safety laminated glass or 6 mm tempered glass, on both the lower fixed panel and adjustable upper panel. There are a variety of different supports and union kits available, made of stainless steel, depending on the configuration of the system.
